Summary

I've worked for more than 2 years as a Front-end ReactJs developer and I love it. On the other hand, I have the ability to catch up with new technology quite fast.

The thing that let me work well is people, it would be wonderful if my teammate could help me develop myself in both technical and life.

Experience

Software Engineer

NAB Innovation Centre Vietnam

Dec 2021 - Present (1 year 9 months)

For full-time official work, my team collaborated with Australian and Indian teams. My squad takes responsibility for a mini-app. My role is to implement the UI within integrate BioCatch and a11y, create resolvers on BFF, write queries or mutations with Apollo, and Spike and implement new functions, mentor new members, and present any new feature or new archive to the whole team. Take sharing section, Own some training class in office...

- Team size: 12

- Role: Fullstack-Developer

Software Engineer

FPT Software

Sep 2020 - Dec 2021 (1 year 4 months)

Health and Care Project

- Team size: 10

- Role: Front-end Developer

During my work, I have won the hackathon with my chatbox which increases the UX/UI and profit
